

ALLEGION™

Padlocks

Security ready at hand

The range

BARRIER

Steel padlocks with standard shackle and protected shackle. Rectangular steel padlocks

MONOBLOCK

Brass rectangular padlocks

MARINE

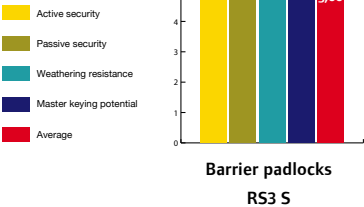

**Chrome plated brass padlocks
with standard shackle**

BLOCK

**Brass padlocks
with standard shackle**

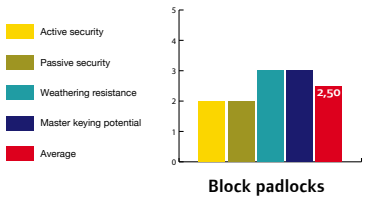

Barrier padlocks

Block padlocks

Block padlock for European profile cylinder

Barrier padlocks

Standard shackle steel padlock

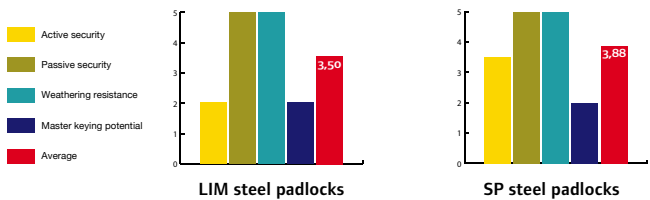

Protected shackle steel padlock

Rectangular steel padlocks

The Barrier padlock range includes 13 types, each available with 6 key types (LIM, SP, ASTRAL, AP3, RS3 S). Barrier padlocks act as a barrier against the risks of burglary and corrosion caused by time, weathering and wear.

LIM

For basic security requirements.

SP

10 pin, 3 row key biting system.
Over 7 million possible combinations.

ASTRAL

Ideal product for medium-security applications:
homes, shops, small offices.
Good master keying potential.

AP3

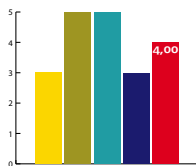

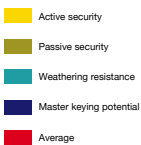

Dedicated product for high-security applications.
Excellent master keying potential for access management applications.
Controlled key duplication: key duplicates can only be obtained from CISA or a CISA Solution Partner.

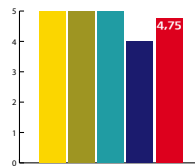

AuthentiCard

RS3 S

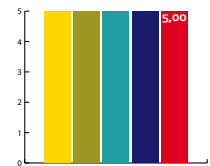

RS3 S is CISA's top-of-the-range product. Ideally suitable for high-security residential uses. Perfect for managing access to companies, shopping malls, universities or hospitals characterized by complex hierarchical structures. Controlled key duplication: key duplicates can only be obtained from CISA or a CISA AuthentiCard Solution Partner.

ASTRAL steel padlocks

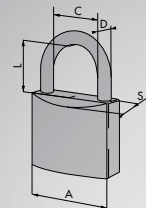

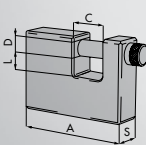

AP3 steel padlocks

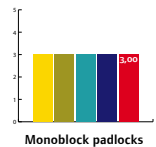

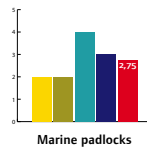

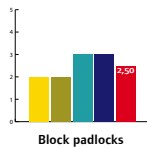

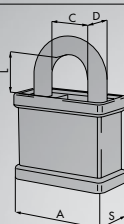

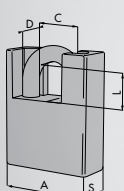

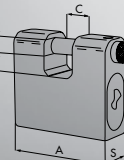

RS3 S steel padlocks
