# azienda / company

Oggi Dnd è un punto di riferimento internazionale per la produzione di **maniglie che guardano alla qualità e al progetto.**

La storia di Dnd nasce oltre cinquant'anni fa, nel 1968, dall'**antica e spiccata dedizione artigianale e industriale** diffusa nella Val Sabbia, in provincia di Brescia: un territorio con un sapere materiale centenario, soprattutto a vocazione siderurgica. Nel tempo, l'azienda si è evoluta e si è concentrata sullo sviluppo e sull'incremento della produzione, rinnovando i processi produttivi e **specializzandosi nella lavorazione e nella rifinitura dei diversi metalli** destinati alla produzione delle maniglie, come la zama e l'alluminio, oltre naturalmente all'ottone.

*Today, Dnd is an international reference point for the production of **handles with a focus on high quality and good design.***

*The history of Dnd began more than fifty years ago, in 1968, arising from the **ancient and strong craft and industrial dedication** which has its strong roots in Val Sabbia, in the province of Brescia. This is an area with centuries of material knowledge, especially in the steel industry. The firm has evolved over time, concentrating on production growth, updating manufacturing processes and **specializing in the use and finishing of various metals** for the production of handles, including zamak and aluminium as well as brass.*

Dnd è diretta da Vilma Martinelli insieme ai figli Pietro e Simona: immaginano Dnd come **una fucina di idee in grado di coniugare la lunga esperienza produttiva** acquisita con la **creatività degli architetti e dei designer** di valore che vengono puntualmente coinvolti nel disegno dei prodotti.

Dal 2017, Dnd ha scelto **Giulio Iacchetti come direttore artistico**: un designer industriale di grande talento, impegnato nello sviluppo del catalogo, nella strategia, nella selezione dei progettisti e dei consulenti da coinvolgere.

*Dnd is managed by Vilma Martinelli together with her son Pietro and daughter Simona: they see the company as **a forge of ideas able to combine the long manufacturing experience** gathered over time with the **creativity of valuable architects and designers** who are duly involved in the design of the products.*
